

Coffee Percolator

Approximately one hour before needing your coffee:

1. Remove lid.
2. Remove basket and stem.
3. Fill up with cold water to the mark.
4. Refit stem and basket.
5. Fill basket with 454 grams (for 50 cup percolator)/900 grams (for 100 cup percolator) of ground coffee.
6. Replace lid.
7. Turn on switch at both the socket and on the percolator.

Your coffee will be ready to drink when the light comes on.
